
MEMBER RETENTION FOR BOUTIQUE STUDIOS

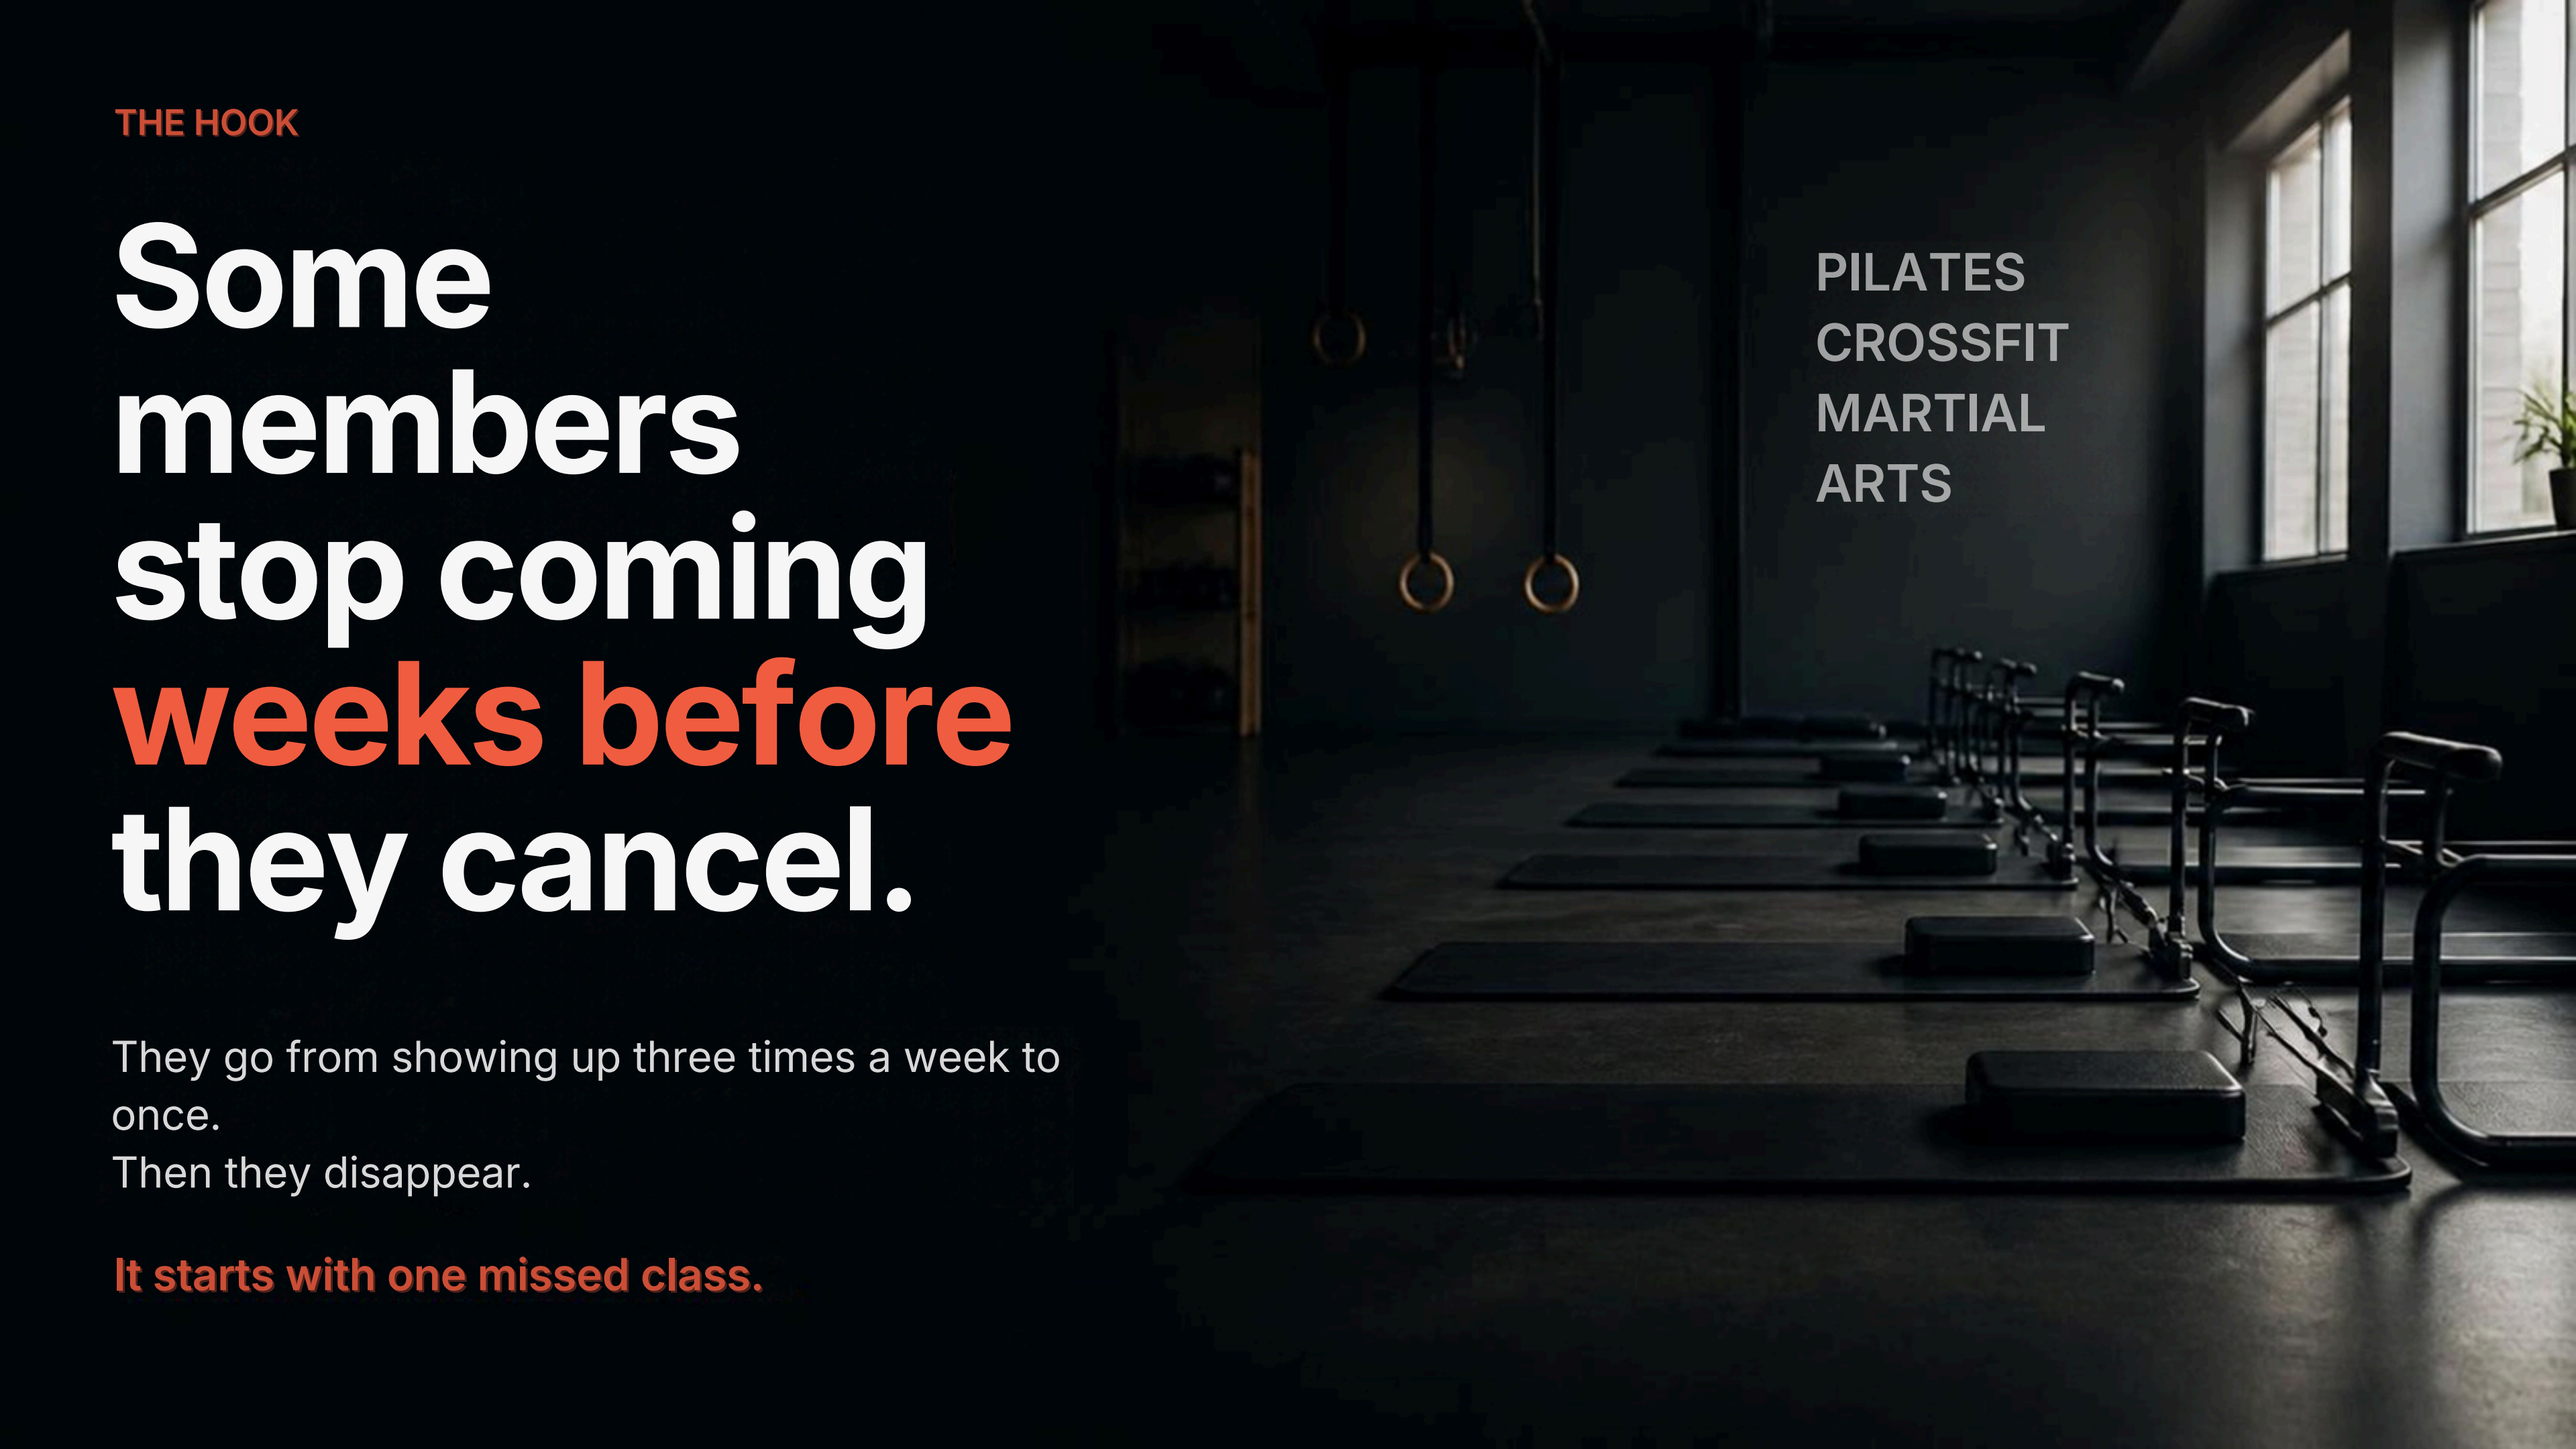
MEMBERPULSE

What if you knew first?

For Pilates, CrossFit and martial arts studio owners

THE HOOK

Some members stop coming weeks before they cancel.



They go from showing up three times a week to once.
Then they disappear.

It starts with one missed class.

THE PROBLEM

Owners find out a member is leaving only when they ask to cancel.

Too many members to track by hand

No time to reach out
to inactive members

Recurring revenue lost
without knowing why

THE SOLUTION

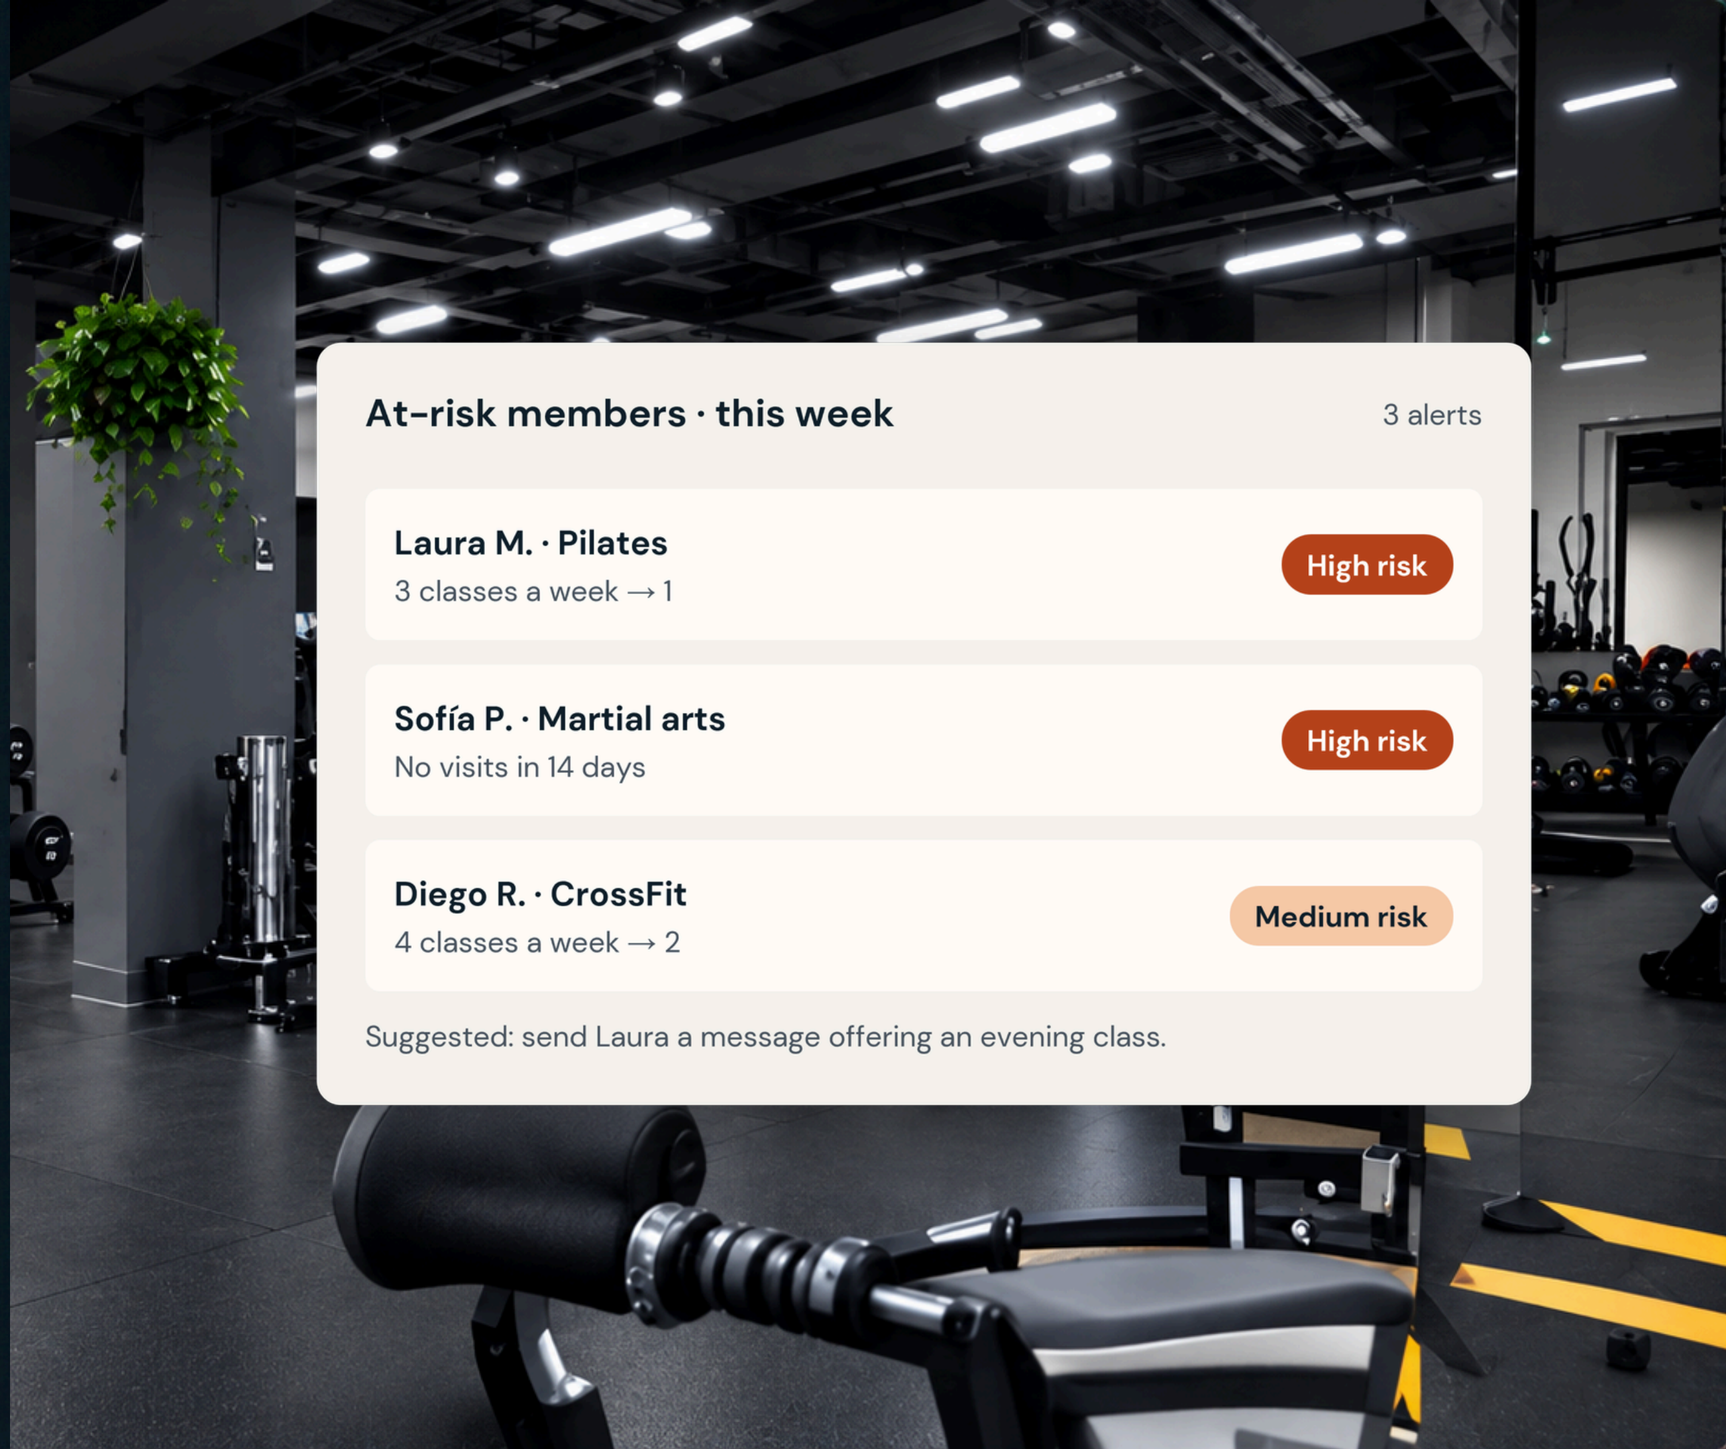
MemberPulse: a simple platform that tracks attendance and flags members who are losing motivation.

1. Detect a significant drop in attendance
2. Alerts the team
3. Staff sends a friendly, personalized message

THE PRODUCT

Every warning sing in on place.

- Attendance trend for each member
- Risk level in plain word
- A suggested next step for staff



WHY MEMBERPULSE

Proactive, not reactive.

Not just tracking who shows up, but knowing when someone needs support

Steps in when attendance starts to drop

Differentiator	Spreadsheets	Typical booking software	MemberPulse
Spotting drops	Manual review	Logs visits, no alerts	Automatic alerts
When you act	After they cancel	After they cancel	When attendance starts to fall
Staff time	Hours of records	Reports to dig through	One list, ready to act

MAIN BENEFIT

Save time. Protect recurring revenue.

Build stronger relationships.

Reach out at the right moment

No more hours reviewing attendance records

All warning signs in one place
